UNIÓN EUROPEA

08:45 - 09:30h Bienvenida (ES)

Raquel Yotti. Carlos III Health Institute, Director.

Manuel Sánchez. Gerente CIBER.

Anna Bigas. CIBERONC Scientific Director.

09:30 - 11:00h Scientific Programs. Session I (EN)

09:30 – 10:00h. Respiratory Tract Tumors Program

Carlos Camps & Eloísa Jantus. Fundación de Investigación del Hospital General Universitario de Valencia. *Non-Invasive Immunogram.*

Multidimensional approach for characterizing and monitoring the immune status in lung cancer.

10:00 – 10:30h. Breast Cancer Tumors Program

Atanasio Pandiella. Centro de Investigación del Cáncer.

HER3 targeting with an antibody-drug conjugate bypasses resistance to anti-HER2 therapies.

10:30 – 11:00h. Gastrointestinal Tract Tumors Program

Andrés Cervantes. Instituto de investigación sanitaria INCLIVA.

Profiling and targeting minimal residual disease in localized colon cancer.

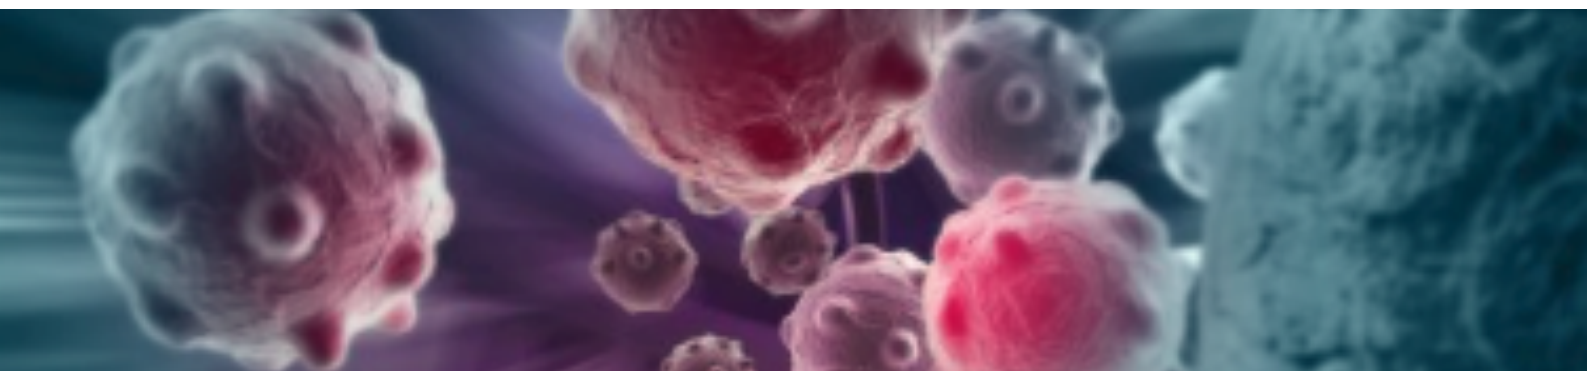

11:00 - 11:30h Break

11:30 - 13:00h Scientific Programs. Session II (EN)

11:30 – 12:00h. Hematological Tumors Program

Bruno Paiva. Universidad de Navarra.

Immunogenomic identification and characterization of granulocytic myeloid-derived suppressor cells in multiple myeloma.

12:00 – 12:30h. Low Prevalence Tumors Program

Rosa Noguera. Instituto de investigación sanitaria INCLIVA.

Invasive tumor front characterization of aggressive uterine adenocarcinomas and leiomyosarcomas.

12:30 – 13:00h. Mechanisms of Tumor Progression Program

Joan Seoane. Instituto de Investigación Oncológica Vall d'Hebron-VHIO.

Novel therapeutic targets and monitoring tools in brain malignancies.

13:00 - 13:30h Training and Mobility Program (EN)

Gema Moreno. Coordinator of the program.

13:30 - 15:30h Break

15:30 – 16:30h Awards (EN)

15:30 – 15:50h. Best Female Researcher CIBERONC 2021 Award

Silvia Beà. Instituto de Investigaciones Biomédicas August Pi i Sunyer.

15:50 – 16:10h. Best Young Researcher Leader CIBERONC 2021 Award

Pedro Berraondo. Clínica Universitaria de Navarra.

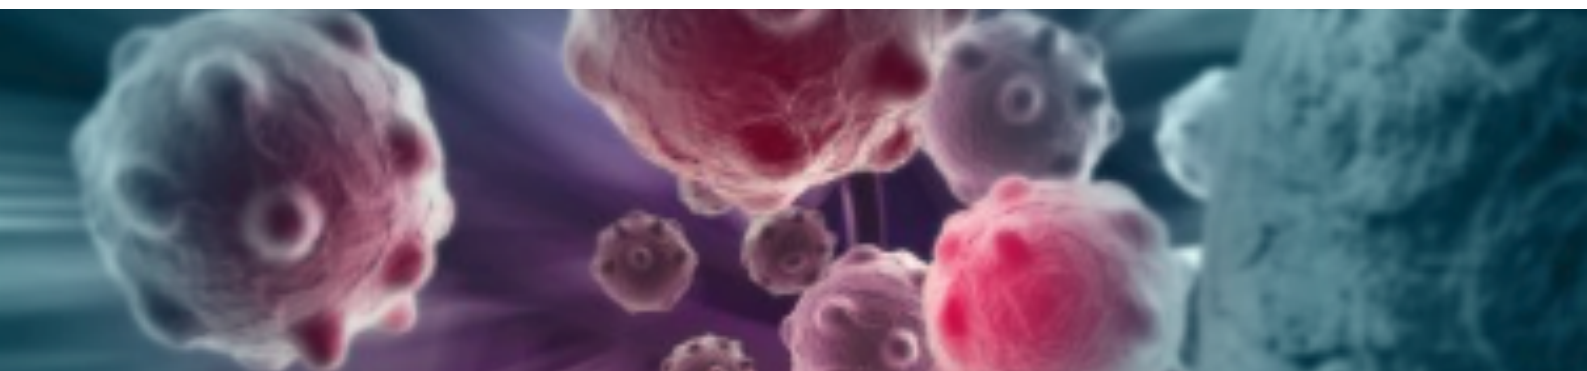

16:10 – 16:30h. Most collaborative publication CIBERONC 2021 Award

Núria Malats. Centro Nacional de Investigaciones Oncológicas.

Deciphering the complex interplay between pancreatic cancer, diabetes mellitus subtypes and obesity/BMI through causal inference and mediation analyses.

16:30 - 18:30h Reunión de Jefes de Grupo (ES)

Asistencia limitada a Jefes de Grupo CIBERONC.

08:55 - 09:00h Bienvenida/Welcome

09:00 - 10:00h CIBER-BBN Session (EN)

Ramón Martínez Máñez. Scientific Director of CIBER-BBN.
An overview of CIBER-BBN technologies for oncology.

10:00 - 10:30h Strategic session on internationalization

Cristina Rodríguez. CIBER Technical Office.

10:30 - 10:50h Strategic session on intellectual property

Luzma García & Estrella Maroto. CIBER Technical Office.

10:50 - 11:15h Break

11:15 - 13:30h Work Modules Session (EN)

11:15 – 11:50h. Bioinformatics & Omics

Alberto Pérez. Director of RedIRIS.
The open science cloud model.

11:50 – 12:25h. Liquid Biopsy

Klaus Pantel. University Medical Centre Hamburg-Eppendorf.
Liquid Biopsy: From Discovery to Clinical Application

12:25 – 13:00h. Immunooncology

Manel Juan. Hospital Clínic de Barcelona.
CAR-T in Spain and in the world: reflecting on where we are headed.

13:00 – 13:35h. Experimental Models

Kristina Haase. EMBL.
Vascularized in vitro tools for investigating tumours in a physiologic microenvironment.

13:35h Cierre de jornadas/Closure
